

Stop gun violence! → Stop nuclear weapons!

Guns are designed to **kill one person or dozens**. Nuclear weapons are designed to **kill millions or hundreds of millions**.

Guns and nuclear weapons are rooted in similar problems:

- Anger and fear cause someone to shoot a gun – and also to build and launch nuclear weapons.
- A temporary impulse can shoot a gun – or start a nuclear war.
- Big business corporations build guns and nuclear weapons for profits.
- Manufacturers of guns and nuclear weapons bribe and lobby Congress to continue building them.

People can organize at the grassroots to stop guns and nuclear weapons:

- Nonviolent grassroots organizing has accomplished much throughout history.
- People have made some progress even against guns and nuclear weapons.
- Nonviolent grassroots movements are organizing new efforts against guns and nuclear weapons.
